EDUCATION

Electronics And Communication Engineering Anna University

07/2016 – Present

8.2

TECHNICAL SKILLS

Python

Deep Learning

Machine Learning

Java Script

HTML

CSS

Angular.js

Node.js

Java

Keras

Python ML Libraries

PERSONAL PROJECTS

Gender Prediction using Neural Networks (08/2018)

- Done using Python and Tensorflow

Clustering of College Data (10/2018 – 11/2018)

- Using Python and Self-Organising Maps(A Deep Learning Algorithm).

Node JS Rest API (11/2018)

- Done Using Node, Express, MySQL.

eCommerce Project (03/2018 – 05/2018)

- Using Java, Spring, Hibernate, Tomcat, H2 DB

ACHIEVEMENTS

Next Generation Vehiches Using Deep Learning and CV(Paper) (07/2018 – 09/2018)

Presented a paper on implementing Deep Learning algorithms and computer vision to solve the problems of the public on the Road and achieved a 2nd prize at Madras Institute of Technology(MIT).

LANGUAGES

English

French

INTERESTS

Data Science

Machine Learning Research

Web Development
